

HMI and display unit monitor industrial grade 17"

Available with VGA - DVI - HDMI – BNC

Allwan Security, a specialist in field and industrial video systems for over 25 years, offers a 17" high-resolution monitor designed for industrial environments.

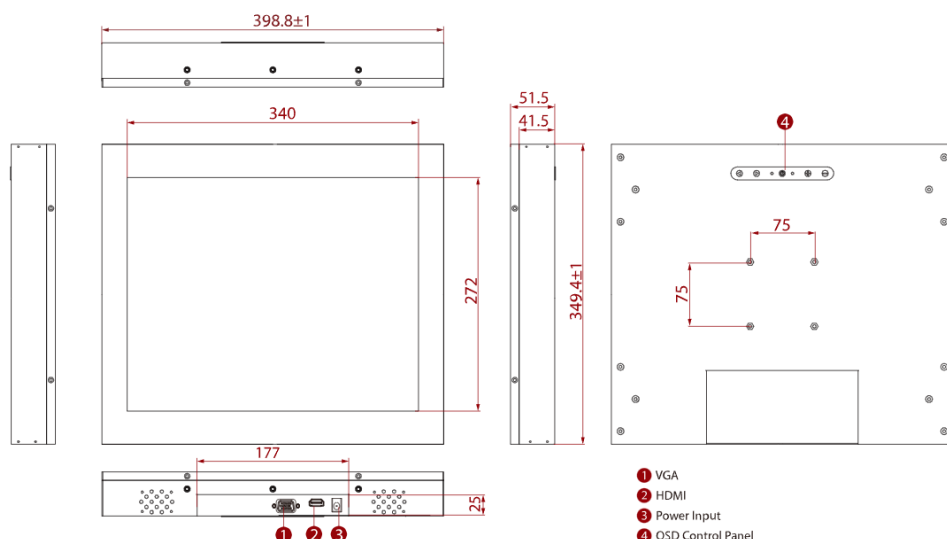

This monitor stands out for its durability, excellent image quality, and long lifespan. An optional shockproof glass provides extreme resistance under all conditions, making it ideal for demanding industrial applications.

Technical specifications

MO1017 - 17" Industrial Hardened Monitor
