

FumexProHD

Portable solution for chimney duct and dry column inspection

Axial and radial vision thanks to the dual camera

The FumexProHD inspection camera from Allwan Security is a professional system designed for the visual inspection of chimneys, flue ducts, vertical industrial piping, or hard-to-reach exhaust systems.

Thanks to its compact and portable system, it is perfectly suited for on-site inspections and can be easily carried to the top of a roof for inspection operations.

Technical Specifications

FumexPro-HD	
CAMERA	
Dimensions	Diameter 45 x 107 mm
Resolution	720p (1280x720)
