

GSM JAMMER QUAD BAND

Introducing the new and powerful RX10 handheld jammer for all worldwide cell phone networks and also 2.4Ghz Bluetooth and Wi-fi networks. This jammer is brand new in for 2009 and outputs 1200 mw and has a range of up to 30 metres in the right conditions. It is supplied with a universal power supply and rechargeable battery. This is one of the most powerful handhelds on the market.

This model works in all countries and covers 800/900/1800/1900/3G-UMTS/2.4Ghz networks. It is supplied with a worldwide compatible a/c wall charger and instruction leaflet.

What is new on this model is the dip switches that allow you to decide which bands you want to jam, those that you do not wish to jam can have the switches turned off and the antenna removed, this is a great idea as it conserves battery power and provides you with a dedicated cell phone jammer and/or Wi-fi/Bluetooth jammer.

Specification:

Effective range: up to 30 metres radius (in optimum conditions) depending on the strength and type of cellular system.

Input power: In-built 6.0v Ni MH battery pack, battery life approx 1 hour.

Output signal strength: 1200mW

System: Nextel, AMPS, TACS, NMT, GSM, DCS, CDMA, PDC, TDMA, PHS, IDEN, W-CDMA, UMTS, 3G - 800-964 MHz 890-964 MHz

1.700-2.200 MHz, 2400-2500mhz

Signal source: Synthesized Operation

Temperature: -10c to +50c

Humidity: 5% to 80%

Size: L 110 x W 62 x H 30 mm Weight: 285gm
