

Stainless Steel display unit 100% waterproof IP67, shocks vibrations – 21.5"

Available with VGA - DVI - HDMI – BNC input

Allwan Security, a specialist in field and industrial video systems for over 20 years, announces its 21.5" high-resolution monitor, made of stainless steel and waterproof IP67 on all 6 sides.

Perfectly suited for food processing, industrial, saline, and chlorinated environments, it will impress you with its robustness, image quality, and long lifespan. The anti-vandal glass ensures extreme resistance in all conditions.

Caractéristiques Techniques :

MO1022IP – Reinforced 21.5" all weather conditions SST monitor	
Display	21.5" TFT LCD
Resolution	1920x1080
Luminosity / Contrast	1000cd/m ² Contrast : 2000 :1
Colors	16,7 Millions
Touch screen	Option : Dalle tactile résistive
Video inputs	To be defined on order BNC ; VGA ; DVI ; HDMI
Viewing angles	88/88/88/88°
Power Supply	12VDC 2A Option 9~36VDC or 90~264VAC
Working temperature	0 to +45° Option: -10 to +50° (standard on Sunlight models)
Storage temperature	-20 to +60°C
Others	Fanless, 316 SST body
Ingress Protection	IP67 on all faces

Options:

- Backlight panel for outdoor display
- Power supply 9~36VDC
- Touchscreen
- Operating temperature -10 to +50°C

Description

- 316 stainless steel chassis
- Hardened panel with high shock resistance
- Composite BNC, VGA, DVI, or HDMI input
- Waterproof IP67 on all sides
- VESA 75 mounting pattern
