

CAMERAS AND MONITORING SOLUTIONS FOR UNDERWATER WORKS

ALLWAN SECURITY is a French manufacturer of reinforced underwater video systems since 2002.

Our priority is to offer quality and resistant products.

ALLWAN SECURITY cameras ensure the safety of the diver and offer a proof of the work conducted.

Customized equipment on request.

FULL HD VISION AND RECORDING CASES

- A robust and compact all-in-one solution for scuba divers
- Easy to use, Full-HD recording, time-stamped videos
- Solid buttons, easy to handle even with gloves
- With or without integrated communication
- 1 or 2 divers
- PeliCase shockproof case
- 100% customizable to your needs

Several options are available such as motorized camera control, dimmer lighting or internal battery with 8 to 10 hours autonomy.

It is perfect for all types of situations, not only for the video return of scuba divers but also for on-board applications, in the field, on isolated sites and in industrial environments.

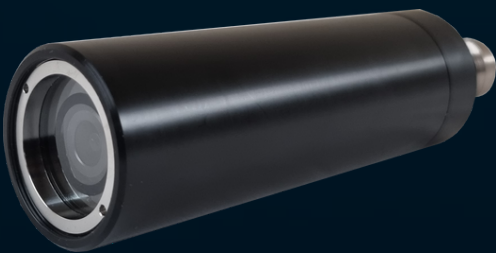

Our cases are compatible with many Allwan Security cameras.
